My Name is Battle 2

1 Oh we have tasted steel and smoke For those that live in comfort dear For those that cannot touch upon And at the Judgement Day of God		for those at home that cannot bide Within the shelter we provide Our honored bravery of soul will gladly count themselves as whole.	
Chorus: grief and pair blame	We now have lost th	ne company	of some who shared our
	Those sacred Brothers of the Blood who never sought to (hurt or) (lay the)		
	Our name is Battle		
2 X X X X X			
3 X The demons and the nightmares' might We shall forever steadfast stand The price we pay to earn this trust		before which we must later bow your guard, your bastion, and your shield -to lose our soul on battlefield	
4 The cost of Freedom must be won By those who for some, far from here But soldiers all, we sacrifice Our lives and honor for our home		From time to time, it must be paid Are only names upon a grave and on our country's Altar lay the highest price a man can pay	
5 So sleep in peace, good gentles all Our price is all the blood we shed Our parents gave their children up grown Our wives and children left behind		I charge you never to forget our youth we gave without regret Who once they thought were (not yet)(fully) the little ones we've never known	
6 Our memories in marbled carved We did not falter nor did fail So honor now the sacrifice And ever if the need arise		now stand against the dark of night our duty in our Nation's sight. of sons and daughters gone before We'll answer to the call once more.
